

Science III Essential Interactions

Table of Contents

Unit 1: MATTER

Overview

Chapter 1: Matter and Change

Getting Started

- 1.1 Activity: Chemicals and Safety
- 1.2 Properties of Matter
- 1.3 Investigation: Identifying Substances Using Properties
- 1.4 Case Study: In Search of Safer Paint
- 1.5 Investigation: Identifying Substances Using Density
- 1.6 Investigation: Chemical Magic
- 1.7 Physical and Chemical Changes
Career Profile: Hair Colorist
- 1.8 Investigation: Observing Changes
- 1.9 Corrosion
- 1.10 Investigation: Preventing Corrosion
- 1.11 Combustion

Review

Chapter 2: Elements and Compounds

Getting Started

- 2.1 Models of Matter: The Particle Theory
- 2.2 Investigation: Classifying Elements
- 2.3 Putting Metals to Work
- 2.4 Investigation: Breaking Compounds into Elements
- 2.5 Case Study: Testing for Elements and Compounds
- 2.6 Investigation: Identifying Mystery Gases
- 2.7 Chemical Symbols and Formulas
- 2.8 Atoms, Molecules, and the Atmosphere
- 2.9 Activity: Building Models of Molecules
- 2.10 Names and Formulas for Compounds
- 2.11 Plant Nutrients and Fertilizers
Career Profile: Science Teacher
- 2.12 Metal Extraction and Refining
- 2.13 Explore an Issue: A Mine in the Community

Review

Chapter 3: Models for Atoms

Getting Started

- 3.1 Investigation: Making a Logical Model
- 3.2 Developing Models of Matter
Career Profile: Biochemistry and Ethics
- 3.3 Inside the Atom
- 3.4 A "Planetary" Model of the Atom
- 3.5 Investigation: Using Electrons to Identify Elements
- 3.6 Isotopes and Radioisotopes
- 3.7 Explore an Issue: Fireworks: Electron Jumps in Action

Review

Chapter 4: The Periodic Table

Getting Started

- 4.1 Organizing the Elements
- 4.2 Activity: Inventing a Periodic Table
- 4.3 Activity: Exploring the Modern Periodic Table
- 4.4 Groups of Elements
- 4.5 Investigation: Groups of Elements and Compounds
- 4.6 Case Study: Elemental Magic
- 4.7 Explore an Issue: Ozone: A Global Environmental Hazard
- 4.8 Investigation: Linking Atomic Structure and Periodicity
- 4.9 Activity: Groups of Elements: Profile
Career Profile: Science Journalist

Review

Challenge: Building from the Past to the Present

Review

Unit 2: REPRODUCTION

Overview

Chapter 5: Cell Growth and Reproduction

Getting Started

- 5.1 The Microscope and Cell Theory
- 5.2 Cells: The Basic Unit of Life
- 5.3 Case Study: Discovering the Origin of Cells
- 5.4 The Importance of Cell Division
- 5.5 Cell Division
- 5.6 Activity: Observing Cell Division
- 5.7 Investigation: Determining the Rate of Cell Division
Career Profile: Using Law in Science
- 5.8 Reproduction and Cell Division
- 5.9 Investigation: Calculating Population Growth Rates
- 5.10 Hormones for Cell Growth and Division
- 5.11 Investigation: Measuring Plant Growth
- 5.12 Case Study: Cell Division and Patterns of Growth
- 5.13 Explore an Issue: Slowing Down Aging

Review

Chapter 6: A Closer Look at Cell Division

Getting Started

- 6.1 DNA: The Genetic Material
Career Profile: Cystic Fibrosis Researcher

- 6.2 DNA, Mutations, and Cancer
- 6.3 Activity: Lifestyle and Cancer
- 6.4 Investigation: Inhibiting Cell Division
- 6.5 Regeneration
- 6.6 Explore an Issue: Transplant Farms
- 6.7 Producing Plants Without Seeds
- 6.8 Investigation: Cloning from Plant Cuttings
- 6.9 Cloning

Review

Chapter 7: Sexual Reproduction and the Diversity of Life

Getting Started

- 7.1 Case Study: Reproductive Strategies
- 7.2 Meiosis
- 7.3 Reproduction in Flowering Plants
- 7.4 Investigation: Flower Anatomy
- 7.5 Reproduction of Plants for Food
- 7.6 Sex Cell Development in Males
- 7.7 Sex Cell Development in Females
Career Profile: Fertility Specialist
- 7.8 Case Study: Hormones and the Reproductive Cycle
- 7.9 Atypical Meiosis
- 7.10 Explore an Issue: Genetic Screening
- 7.11 Activity: Human Karyotypes

Review

Chapter 8: Zygotes and Development

Getting Started

- 8.1 Survival and Development of Organisms
- 8.2 Investigation: Examining Plant Embryos
- 8.3 Investigation: Germinating Seeds
- 8.4 Activity: Eggs and Embryo Development
- 8.5 Human Conception and Pregnancy
- 8.6 Human Reproductive Technology
Career Profile: Working to Improve Women's Health
- 8.7 Case Study: Comparing Embryo Development
- 8.8 The Human Embryo
- 8.9 Explore an Issue: Fetal Alcohol Syndrome
- 8.10 Birth

Review

Challenge: Society and Reproductive Technology

Review

Unit 3: ELECTRICITY

Overview

Chapter 9: Electrostatics

Getting Started

- 9.1 Investigation: Investigating Electric Charges
- 9.2 The Electrical Nature of Matter
- 9.3 Charging by Friction
- 9.4 Investigation: Charging Different Substances by Contact
- 9.5 Transferring Charge by Contact
- 9.6 Insulators and Conductors
- 9.7 Discharging Electrically Charged Objects
Career Profile: Aircraft Mechanic
- 9.8 Induction
- 9.9 Investigation: Charging by Induction
- 9.10 Lightning
- 9.11 Case Study: Interesting Insulators and Conductors

Review

Chapter 10: The Control of Electricity in Circuits

Getting Started

- 10.1 Investigation: The Electric Circuit
- 10.2 Electricity and Electric Circuits
- 10.3 Electric Potential (Voltage)
Career Profile: Master Electrician
- 10.4 Activity: Building a Simple Wet Cell
- 10.5 Electrochemical Cells
- 10.6 Investigation: Batteries-Combinations of Cells
- 10.7 Cells in Series and Parallel
- 10.8 Explore an Issue: Cells and Batteries: Costs and Benefits
- 10.9 Electric Current
- 10.10 Electrical Resistance and Ohm's Law
- 10.11 Investigation: Ohm's Law
- 10.12 Investigation: Parallel and Series Circuits
- 10.13 Electrical Circuits with Multiple Loads

Review

Chapter 11: Harnessing Electrical Energy

Getting Started

- 11.1 Investigation: Energy Stored in Batteries
- 11.2 Measuring Electrical Energy
- 11.3 Activity: Energy When You Need It Most
- 11.4 The Rate at Which Energy Is Used
- 11.5 Electrical Energy
- 11.6 Case Study: Automobiles and the Fuel Cell
- 11.7 Investigation: Energy Transformations
- 11.8 Small-Scale Generation Methods
- 11.9 Large-Scale Sources of Electrical Energy
- 11.10 Activity: Using Renewable Resources
Career Profile: Electrical Engineer
- 11.11 Explore an Issue: Bridging the Energy Gap

Review

Chapter 12: Using Electrical Energy Safely and Efficiently

Getting Started

- 12.1 Investigation: Safety in the Home
- 12.2 Distributing Electrical Energy Safely
- 12.3 Activity: Practical Circuits
- 12.4 Making the Most of Energy Resources
- 12.5 Electrical Energy Use in the Home
- 12.6 Activity: The Family Energy Audit
- 12.7 Case Study: Efficiency, Conservation, and Convenience
Career Profile: Engineer in Business
- 12.8 Optimizing the Use of Electrical Energy
- 12.9 Activity: Achieving Self-Sufficiency
- 12.10 Explore an Issue: Need More Energy?

Review

Challenge: Conserving Energy Review

Unit 4: SPACE

Overview

Chapter 13: Sky-Watching and the Solar System

Getting Started

- 13.1 What Can We See in the Sky?
- 13.2 Investigation: Sunrise and Sunset
- 13.3 The Effects of Planetary Motion
- 13.4 Activity: Recognizing Constellations
- 13.5 Activity: Measuring Angles in the Sky
- 13.6 Case Study: Different Views of the Sky
- 13.7 Activity: A Seasonal Star Map
- 13.8 Activity: Observing the Night Sky
- 13.9 Explore an Issue: Light Pollution
- 13.10 The Solar System
- 13.11 Activity: A Model of the Solar System
- 13.12 Probes to the Planets
- 13.13 Investigation: The Speed of Planets
- 13.14 A Closer Look at the Planets
Career Profile: Prize-Winning Astronomer
- 13.15 Other Objects in the Solar System

Review

Chapter 14: The Nature of the Universe

Getting Started

- 14.1 Changing Ideas About the Universe
- 14.2 Explore an Issue: Who Owns the Solar System?
- 14.3 Activity: Using Triangles to Measure Distances
- 14.4 Distances in Space
- 14.5 Activity: Scaling the Universe
- 14.6 Telescopes
Career Profile: Space-Age Communicator
- 14.7 The Sun: An Important Star
- 14.8 Investigation: Observing Our Closest Star
- 14.9 Investigation: The Brightness of Stars
- 14.10 Characteristics of Stars
- 14.11 Galaxies and Star Clusters

Review

Chapter 15: The History of the Universe

Getting Started

- 15.1 The Life of a Star
- 15.2 The Origin of the Planets
Career Profile: Space Artist
- 15.3 Activity: A Model of the Expanding Universe
- 15.4 Evidence of an Expanding Universe
- 15.5 The Origin of the Universe
- 15.6 Case Study: The Hubble Deep Field
- 15.7 How Astronomers Use Computers

Review

Chapter 16: Space Research and Exploration

Getting Started

- 16.1 Getting into Space
- 16.2 Investigation: Launching Water Rockets
- 16.3 Earth-Orbit Satellites
- 16.4 Case Study: LANDSAT/RADARSAT
- 16.5 Activity: Tracking Satellites and Other Objects
- 16.6 The International Space Station
- 16.7 Humans in Space
- 16.8 Investigation: Gravity and Free Fall
- 16.9 Activity: Spinoffs from the Space Industry
Career Profile: Aerospace Engineer
- 16.10 Space Medicine
- 16.11 Investigation: Experimenting in Free-Fall Conditions
- 16.12 Explore an Issue: Our Future in Space

Review

Challenge: Bringing Your Ideas Together

Review

Unit 5: SKILLS HANDBOOK

Periodic Table of the Elements
